

## VISION

In Minnesota, all people are equipped and empowered to enjoy healthy lives.

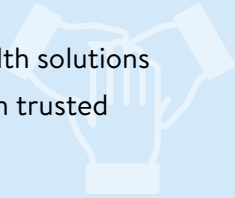

## MISSION

HPCD advances health equity by collaboratively preventing and reducing the impacts of chronic disease, violence, injury, and disability.

## GOALS AND STRATEGIES

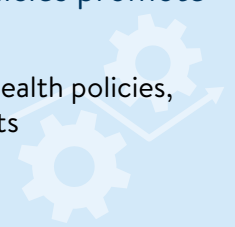

Working together, we advance health equity.

- Co-create equitable health solutions
- Build, strengthen, sustain trusted partnerships

Minnesota systems and policies promote health and health equity.

- Jointly ensure equitable health policies, systems, and environments

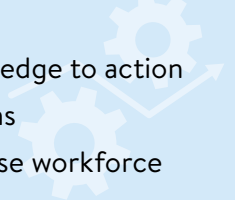

Minnesotans value an inclusive approach to health and well-being.

- Take a holistic approach to public health
- Build commitment to equitable public health strategies

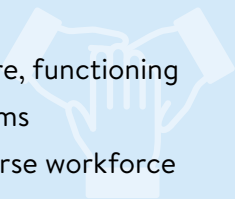

HPCD is a leader in informed, effective programs.

- Translate collective knowledge to action
- Deliver effective programs
- Sustain a skilled and diverse workforce

HPCD is a trusted and recognized partner in public health.

- Strengthen HPCD culture, functioning
- Deliver effective programs
- Sustain a skilled and diverse workforce

The HPCD Strategic plan supports the MDH Strategic Plan and One Minnesota priorities.

### Next Steps:

HPCD is collaboratively developing action plans and performance metrics to advance the new mission and vision. This document will be updated when more information is available.
