

Applicant Conflict of Interest Disclosure

The purpose of this form is to provide grant applicants a mechanism to disclose any actual, perceived or potential individual or organizational conflicts of interest that exist, as required by [Minn. Stat. § 16B.98](#), subd 2-3; Minnesota Office of Grants Management (OGM) [Policy 08-01, “Conflict of Interest Policy for State Grant-Making”](#); and federal regulation [2 Code of Federal Regulation \(CFR\) § 200.112, “Conflict of Interest.”](#) It is helpful if the applicant explains the reason for the conflict, but it is not required.

A disclosure will not automatically result in removal of the applicant, or grant application, from the review process.

Instructions

Read the descriptions below, mark the appropriate box(es) that pertain to you and your organization as it relates to this specific Request for Proposal (RFP), obtain applicant signature (applicant to determine appropriate signer).

Conflicts of Interest

Conflicts of interest may be actual, potential, or perceived. An actual conflict of interest occurs when a person uses or attempts to use their official position to secure benefits, privileges, exemptions or advantages for self, relatives, or organization with which the person is associated which are different from those available to the general public ([Minn. Stat. § 43A.38](#), subd. 5). A potential conflict of interest may exist if an applicant has relationships, affiliations, or other interests that could create an inappropriate influence if the person is called on to make a decision or recommendation that would affect one or more of those relationships, affiliations, or interests. A perceived conflict of interest is any situation in which a reasonable person would conclude that conflicting duties or loyalties exists. A conflict of interest may exist even if no unethical, improper or illegal act results from it.

The Minnesota Department of Health (MDH) recognizes that applicants must maintain relationships with other public and private sector entities in order to continue as a viable organization. MDH will take this into account as it evaluates the appropriateness of proposed measures to mitigate actual, potential, and perceived conflicts of interest. It is not MDH’s intent to disqualify applicants based merely on the existence of a relationships with another entity, but rather only when such relationships cause a conflict that cannot be mitigated. Nevertheless, MDH and its partners must follow federal regulation and statutory guidance on conflicts of interest.

I. **Organizational Conflict of Interest:**

An **organizational conflict** of interest exists when, because of other activities or relationships with other persons, a person is unable or potentially unable to render impartial assistance or advice, or a person’s objectivity in performing the grant work is or might be otherwise impaired, or a person has an unfair competitive advantage.

An example of organizational conflict of interest includes, but is not limited to:

- Unequal Access to Information. Access to information that is classified as nonpublic data or is otherwise unavailable to the public could provide a vendor a competitive advantage in a later competition for another grant. For example, a nonprofit entity, in the course of conducting grant work for the State, may be given access to information that is not available to the public such as government plans, opinions, interpretations or positions. This nonprofit entity cannot use this information to its advantage in securing a subsequent grant, and measures must be put into place to assure this. Such an advantage could be perceived as unfair by a competing vendor who is not given similar access to the relevant information.

II. Individual Conflict of Interest:

An **individual conflict** of interest occurs when any of the following conditions is present:

- a. An applicant, or any of its employees, uses their position to obtain special advantage, benefit, or access to MDH’s time, services, facilities, equipment, supplies, prestige, or influence.
- b. An applicant, or any of its employees, receives or accepts money, or anything else of value, from another state grantee or grant applicant with respect to the specific project covered by this RFP/project.
- c. An applicant, or any of its employees, has equity or a financial interest in, or partial or whole ownership of, a competing grant applicant organization.
- d. An applicant, or any of its employees, is an employee of MDH or is a relative of an employee of MDH.

Examples of individual conflict of interest include, but are not limited to:

- An individual owns Entity C and also sits on the board of Entity D, and both entities are applying to the same RFP.
- An employee or volunteer of the applicant has previously worked with MDH to create the “ground rules” for this solicitation by performing work such as, but not limited to: writing this RFP, preparing evaluation criteria, or evaluation guides for this RFP.
- An employee or volunteer of the applicant is compensated for serving on the board of a non-profit that may benefit from this work.

Instances in which an individual or applicant worked in a volunteer capacity with MDH should be evaluated on a case-by-case basis. Volunteer status has the potential to, but does not necessarily create a conflict of interest, depending on the nature of the relationship between the two parties. Volunteer is defined as “[a]n individual who performs hours of service for a public agency for civic, charitable, or humanitarian reasons, without promise, expectation or receipt of compensation for services rendered, is considered to be a volunteer during such hours” ([29 CFR § 553.101\(a\)](#)).
