## **HOSPITAL EVACUATION JOB AID**

Threat Assessment and Decision Tool

COMMAND JOB AID	_
Initial assessment	
Review threat intensity and likely duration	
Review any unit-based relocations that are occurring and anticipate needs	
Determine, based on the unit-based impacts the need for sheltering vs. relocati of displaced patients vs. partial or full evacuation to other institutions (see relevant sections below)	on
Assure damage and utilities impact assessment (Infrastructure Branch Director	)
Shelter in place	
Instruct Infrastructure Branch Director to shut down air intakes if plume threat o internal ventilation if internal HAZMAT spill	or
Implement necessary access controls and monitoring in response to threats (Security Branch Director)	
Communicate protective actions (door and drape closings, etc) to affected units as well as any event specifics	6
Relocation	
Determine affected units and actions taken, notify affected units	
Determine facility capacity for relocated patients - if insufficient see evacuation	۱
Assure resources (staff and supplies) transferred to units with relocated patient	S
Assure all patients accounted for and information transferred to receiving units	
Determine timeframe to recover affected units and any effects on patient	
admissions, scheduling (e.g. surgeries) and flow	
Evacuation	
Determine scope of evacuation (partial for subset of patients / areas - for	
example ICU patients, complete for total facility evacuation) based on threat	
Consider appointment of Evacuation Branch Director under Operations if	
Operations has multiple other issues (fire, etc) to address	
Activate any appropriate facility response plan alerts	
Announce evacuation order to affected units / institution	
Determine whether usual staging area(s) can be used and announce alternative Assign Staging Manager and Transportation Officer (HICS positions) to coordina	35 to
patient and vehicle staging according to evacuation plans	le
Initiate coordination between Planning Chief and Resource Unit on transportation (see table in EOP Evacuation Annex) and facilities to accept patients/residents and report back to IC	on
Contact RHPC (insert phone number) for coordination assistance	
Place alert on MnTrac or appropriate electronic communication tool regarding scope of evacuation and any EMS diversion actions	
Notify local EMS agency of situation and activate any mutual aid plans; summon necessary public safety assistance	
Security to implement appropriate access controls – no family or visitors inside during evacuation	
Security coordinates with local law enforcement regarding external traffic Contr	ols
Logistics Chief to assure pharmaceuticals and supplies to staging areas	
Distribute staff and resources to affected areas to facilitate patient / staff	
movement to staging areas PIO to communicate facility status to media and families	
Assure matching of patients to appropriate transfer facility	
Assure nationing of patients to appropriate transfer facinity Assure patient tracking by transportation officer at time of loading	
Assure prioritized movement of patients to and through staging (in non-	
emergency evacuation, Staging Manager should call units to sequentially evacuate them)	
In case of complete evacuation – appoint Stay Team Unit Leader	

3	STAGING JOB AID
I	mmediate (Operational Period 0-2 Hours)
	Receive appointment and briefing from the Operations Section Chief.
	Obtain Staging Unit Job Action Sheets
	Read this entire Job Action Sheet and review incident management team chart
	HICS Form 207). Put on position identification.
	Notify your usual supervisor of your HICS assignment.
	Determine need for and appropriately appoint Evacuation Staging Team Leade
	listribute any corresponding Job Action Sheets and position identification.
	Complete the Branch Assignment List (HICS Form 204).
	Document all key activities, actions, and decisions in an Operational Log (HICS
	Form 214) on a continual basis.
	Brief the Evacuation Staging Team Leaders on current situation; outline branch
	action plan and designate time for next briefing.
	dentify appropriate area(s) to serve as Staging Area(s) based on patient acuity
	he preparation of transporting patients and their equipment from facility to an
	accepting facility.
	Coordinate staging needs of all patients and their equipment and all evacuatio
	staging team members. Request additional or rotation of staff to evacuation
S	staging areas in coordination with Labor Pool & Credentialing Unit and
	ransportation Unit Leader
F	Regularly report Evacuation Staging Area(s) status to Operation Section Chief.
Ā	Assess problems and needs; coordinate with Operations Section Chief.
	nstruct all Evacuation Staging Team Leaders to evaluate situation, including
	patients, equipment, supplies, and medication inventories and staff needs in
	collaboration with Logistics Section Supply Unit Leader; report status to
	operations Section Chief and Supply Unit.
	Continue coordinating transport of patients and their equipment from staging t
	he transport area, working with the Transport Manager as needed.
	Ensure prioritization of problems when multiple issues are presented.
	Develop and submit an Evacuation Staging Area action plan to the Operations
	Section Chief when requested.
	Ensure documentation is completed correctly and collected.
	Make notification and advise the Operations Section Chief immediately of any
	problems encountered or operational issue(s) you are not able to correct or
	esolve.
	Ensure staff health and safety issues being addressed; resolve with the Safety
	Officer.
	Extended (Operational Period Beyond 12 Hours)
	Continue to monitor the Evacuation Staging Team's ability to meet workload demar
	staff health and safety, resource needs, and documentation practices.
	Coordinate assignment and orientation of personnel sent to assist patient/resident
F	Rotate staff on a regular basis.
C	Document actions and decisions on a continual basis.
(	Continue to provide the Operations Section Chief with periodic situation updates.
E	Ensure your physical readiness through proper nutrition, water intake, rest, and stre
m 0	nanagement techniques.
	Observe all staff and volunteers for signs of stress and inappropriate behavior. Rep
	concerns to the Employee Health & Well-Being Unit Leader. Provide for staff rest
	periods and relief.
ī	Jpon shift change, brief your replacement on the status of all ongoing operations,
	ssues, and other relevant incident information.
Ī	Demobilization/System Recovery
	As needs for Evacuation Staging Area decrease, return staff to their normal jobs or
٠	elease and combine or deactivate positions in a phased manner, in coordination w
r	elease and compline of deactivate positions in a phased manner. In coordination w
