

*Protect your patients.
Protect your family.
Protect yourself.*

Get tested for COVID-19

*You work hard every day to keep your patients safe and healthy.
We work to keep you safe through employee testing.*

**You could accidentally bring COVID-19
from your community into your work.**

- COVID-19 can be transmitted by people who do not show any symptoms.
- Get tested to protect you, your family, and the people that you care for.
- Stay at least six feet from others, wear a mask, and avoid risky social situations outside of work.
