

# Health Care Practitioner Satisfaction Survey Data Tables

## Minnesota Medical Cannabis Program

How did they learn about the program?	Percentage
Colleague	46.2%
Program website	31.1%
News article	18.7%
Patient	14.3%
Other	12.4%
Brochure	1.6%

The most common ways health care practitioners learned about the Medical Cannabis Program were from a colleague and by visiting the Office of Medical Cannabis website.

How did they find the registration process?	Percentage
Very easy	69.3%
Somewhat easy	25.1%
Neither easy or difficult	4.4%
Somewhat difficult	0.8%
Very difficult	0.4%

The vast majority of respondents found the registration process very easy (69.3%) or somewhat easy (25.1%). A high percentage of respondents reported understanding the patient enrollment and re-enrollment process (34.0% very well; 40.0% well; 14.0% neutral).

What resources would be useful?	Percentage
Continuing medical education courses	73.1%
Links to research	48.8%
Dosing information	44.6%
Reports on new medical conditions	43.4%
General information	43.0%
Legal issues	40.5%
Legislative information	28.1%
Registration/certification training	26.9%
Other	2.9%

## HEALTH CARE PRACTITIONER SATISFACTION SURVEY HIGHLIGHTS

<b>How can the program be improved?</b>		
<b>Potential change</b>	<b>Somewhat important</b>	<b>Very important</b>
Increase communication among pharmacists, health care providers, and patients	46.2%	32.7%
Allow patient certification to be rescinded	32.9%	23.0%
Change length of patient certification	18.7%	7.6%
Change who can certify patients	8.3%	7.5%

<b>Should they be allowed to certify patients via telemedicine, including for the initial visit?</b>	<b>Percentage</b>
Yes, all of the time	38.6%
Yes, in some instances	29.5%
No, never	11.2%
Not sure	20.7%

<b>Do they want to be included on a public list of health care practitioners who certify patients?</b>	<b>Percentage</b>
Yes	17.9%
No	63.1%
Not sure	19.0%

While some health care practitioners reported they would agree to be on a public list, many noted that they did not want a patient to schedule an appointment only to be certified. Practitioners want an on-going relationship with patients.

<b>How satisfied are they with the program?</b>	<b>Percentage</b>
Very satisfied	54.6%
Somewhat satisfied	30.3%
Neither satisfied nor unsatisfied	11.6%
Somewhat unsatisfied	2.8%
Very unsatisfied	0.8%

The vast majority of health care practitioners reported they were very satisfied (54.6%) or somewhat satisfied (30.3%) with the program.
