DEPARTMENT OF HEALTH

Add a Pre-2001 Birth Record to MR&C

County vital records staff use this form to request that the Office of Vital Records add a record of a birth before 2001 to MR&C. This step is necessary to generate a birth certificate. NOTE: Verify that your customer wants and is eligible to receive a certified copy. Adding the birth record to MR&C is not necessary to issue non-certified records.

For births before 1900 in another county, refer your customer to the county where the record subject was born or contact that county directly to request an image of the birth record.

Birth record information						
Subject	Subject's first name	Subject's middle name		Subject's last name		
	Subject's date of birth (MM/DD/YYYY)	Subject's sex	Subject's city of bir	th	Subject's county of birth
